

Record of Bodies Interred in the Crypt of St Marylebone Parish Church 1817-1853

This list of 863 names has been collated from the merger of two paper documents held in the parish office of St Marylebone Church in July 2011.

The large vaulted crypt beneath St Marylebone Church was used as place of burial from 1817, the year the church was consecrated, until it was full in 1853, when the entrance to the crypt was bricked up.

The first, most comprehensive document is a handwritten list of names, addresses, date of interment, ages and vault numbers, thought to be written in the latter half of the 20th century. This was copied from an earlier, original document, which is now held by London Metropolitan Archives and copies on microfilm at London Metropolitan and Westminster Archives.

The second document is a typed list from undertakers Farebrother Funeral Services who removed the coffins from the crypt in 1980 and took them for reburial at Brookwood cemetery, Woking in Surrey. This list provides information taken from details on the coffin and states the name, date of death and age. Many of the coffins were unidentifiable and marked "unknown". On others the date of death was illegible and only the year has been recorded. Brookwood cemetery records indicate that the reburials took place on 22nd October 1982. There is now a memorial stone to mark the area.

Whilst merging the documents as much information as possible from both lists has been recorded. Additional information from the Farebrother Funeral Service lists, not on the original list, including date of death has been recorded in italics under date of interment. Entries with no or anomalous dates (? coffins transferred from previous resting places) are listed at the end of the table on Page 56 under "other". Some coffins were placed in the extensive catacombs under the west side of the church. This is recorded as "cat." in the final column.

Registration of death was made a legal requirement from 1st July 1837. Copies of death certificates after this date can be requested at the London Metropolitan Archives.
